## OUR COLON CLEANSER

### HUMACLEANSE COLON CLEANSER

#### HOW DO COLON CLEANSERS AND PARASITE CLEANSERS DIFFER?

Colon Cleansers are designed to completely clean out your digestive system especially your colon. Parasite Cleansers are designed with specific herbs to kill parasites with added ingredients to help your digestive system remove parasites.

**WHY COLON CLEANSE?** Most of us do not eat the correct types of food on a daily basis, we eat too much flour, sugar, starches, etc. These things tend to be hard on the digestive system. Any waste that's not completely removed during bowel movements will accumulate in the colon. This accumulated waste is a breeding ground for bacteria which causes toxic waste to leech into your system. These things can create a build up on the colon walls. This build up is also called "mucoid plaque". This fecal matter will coat the walls of the colon. It allows stool to come through a much smaller opening - much like the hole in a doughnut.

**HOW DO I KNOW IF I NEED TO CLEANSE MY COLON?** If you suffer from ANY constipation; bloating; gas; difficult bowel movements; cramping; not feeling "empty"; protruding belly; foul smelling stools; hard stools and just a general feeling of heaviness of the colon - you need to do a colon cleanse.

**HOW DOES HUMACLEANSE WORK? HUMACLEANSE** is a psyllium based colon cleanser. Psyllium swells to 50 TIMES its size - it creates a literal "scrubbing sponge" that will trap and remove parasites, toxins and built up intestinal waste. This swelling action is why HUMACLEANSE should be taken with plenty of water. One teaspoon of psyllium will create over one cup of stool. When psyllium is mixed with liquid outside of the body it is simply a fiber. When psyllium is taken in capsule form it can then turn into a powerful toxin remover and fecal build up remover. It swells and scrubs INSIDE the body. The cascara sagrada in the formula causes the long muscles along the outside of the colon to work in a wave-like motion. This motion causes any colon build up to be worked loose so that the psyllium can trap it and carry it out.

#### WHY HUMACLEANSE IS DIFFERENT

#1 HUMACLEANSE is affordable - \$58.95 for an entire 30 day cleanse!

#2 HUMACLEANSE is easy to take. We are one of a handful of colon cleanser manufacturers to put our formula into capsule form. Powdered herbs are thick, bitter and LITERALLY hard to swallow. Our philosophy is: If it's hard to take, it's hard to stick with it!

#3 HUMACLEANSE is formulated to effectively cleanse the colon without cramping or diarrhea.

**WHAT IS IN HUMACLEANSE?** HUMACLEANSE contains 10g psyllium, 10mg senna, and 10mg cascara sagrada in each daily dose. The added natural laxatives keep things flowing smoothly by helping the body rid itself of toxins and waste. Cascara sagrada stimulates the long muscles along the colon to work in a wave like action. This action helps to loosen the build up so that the psyllium can then trap and remove it entirely.

**WHAT IS THE DOSING?** 3 capsules 3 times per day for 30 days. Swallow ONE PILL at a time and drink lots of water after each pill. Drink at least 8 - 8 ounce glasses of water per day every day during the cleanse. The water allows the psyllium to do it's job properly. HUMAWORM abd HUMACLEANSE can be taken together during the same 30 day period with just a slight adjustment in the dosing schedule. This saves time and also helps to remove toxins out of the body faster.

**WHAT ARE THE SIDE EFFECTS?** You will have a larger volume of stools that are of a soft, formed texture. You may see some strange things in your stool, like dark black colored bits of material, long ropey strands of foreign looking material, maybe even a parasite or two. All of these things are perfectly normal during a colon cleanse.
